

3-tier service trolley h464_308

3-tier polypropylene service trolley, 130 kg capacity, 825x412x950 mm. Hygienic and lightweight structure for catering and hôtellerie.

The **h464_308** service trolley is a professional solution designed to optimize workflows in HoReCa environments and accommodation facilities. Made entirely of **high-resistance polypropylene**, this model combines the lightness needed for quick maneuvers with the robustness required for transporting heavy loads, up to a maximum of 130 kg. The three-tier configuration allows for the orderly management of tableware, linens, or cleaning equipment, ensuring stability during movement.
