

30-compartment medication trolley h919_46

Medical trolley with lockable doors, structure on Ø100 mm wheels. Dimensions: 80.5 x 60 x H 111 cm.

The H919_46 trolley is a professional solution designed to **optimize medication distribution** by healthcare personnel within **hospitals, nursing homes, clinics, and healthcare facilities**. With a solid, certified, and easily maneuverable structure, it fully meets the management and administration needs in the ward.

It is equipped with **30 internal compartments**, designed for subdividing medicines. However, it is fundamental to highlight that **pill box drawers are NOT included in the standard equipment**. The trolley is prepared to accommodate the drawers, but these must be **purchased separately, see options**. Before purchasing, it is recommended to **carefully verify the presence or absence of the necessary option** based on the intended use.

The load-bearing structure is made of **epoxy powder-coated steel**, robust and resistant, while the **30x30 mm aluminum uprights with R90° corners** offer lightness and solidity. The **doors and top** are made of **phenolic compact**, a hygienic and easy-to-clean material, ideal for healthcare environments. The closure is protected by a **key lock**, for safe and responsible control of access to medications.

The trolley is equipped with **4 Ø100 mm wheels, 2 of which have brakes**, and **4 bumpers** to protect surfaces from accidental impacts. With a total weight of **55 kg** and a **maximum capacity of 30 kg**, it is suitable for regular and controlled use on indoor floors.

Compliant with **NP EN ISO 9001** and **NP EN ISO 13485** standards, the H919_46 model guarantees **quality, safety, and traceability**, according to the highest standards of the medical sector.

Choose the **H919_46 trolley** for an organized, safe, and professional distribution of medications. Always check the drawer option before ordering and contact us for personalized advice.

FAQ:

1. **Is the trolley supplied with pill box drawers?**
No. The drawers are NOT included. They are available as an option to be purchased separately.
2. **Is there a lock to protect access to medications?**
Yes, the doors are equipped with a key lock to ensure safety.
3. **Is it easy to maneuver in hospital corridors?**
Yes, thanks to the Ø100 mm wheels, 2 of which with brakes, and the corner bumpers, it is stable and easily transportable.
4. **What is the load capacity of the trolley?**
The trolley has a maximum capacity of 30 kg, sufficient for daily use in the ward.
5. **Is it certified for healthcare use?**
Yes, it is certified according to NP EN ISO 9001 and NP EN ISO 13485 standards, a guarantee of quality and compliance in the medical sector.

Mini buying guide:

When choosing a trolley for medication management in the healthcare sector, carefully evaluate the **number of compartments** and the possibility of adding **optional internal drawers**.

The presence of a **key lock**, braking wheels, and a **sturdy structure** is essential to ensure safety and maneuverability.

Opt for **resistant, hygienic, and easily sanitizable** materials, such as **phenolic compact** and **epoxy powder-coated steel**.

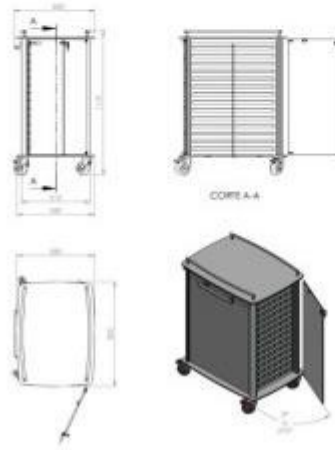

Ensure that the product is **ISO certified**, like the H919_46 model, to guarantee reliability and compliance with health regulations.

30-compartment hospital medication trolley, medical trolley with key lock, medication distribution trolley with optional drawers, ISO 13485 certified healthcare trolley, medication trolley for ward with brake wheels, robust and maneuverable medicine trolley.
