

30 L ballot box h972_92

30-liter ballot box in transparent PMMA with integrated counter and double lock. Dimensions 40x40x30 cm, ideal for secure voting.

The **h972_92 ballot box** with a 30-liter capacity represents a professional solution for managing consultations and voting that require the highest standards of **transparency and security**. Designed for institutional, corporate, and associative contexts, this structure allows for constant monitoring of the content thanks to its integral shell in **transparent PMMA**, a lightweight yet extremely impact-resistant polymer.

The integration of a **mechanical counter** on the insertion slot allows for real-time tracking of turnout, drastically reducing the margin of error during counting operations. Security is guaranteed by a **double independent locking** system, while logistical practicality is ensured by side handles and structural reinforcements on the corners.

Technical specifications

- **Capacity:** 30 liters
- **Material:** High-resistance transparent PMMA
- **Total dimensions:** W 40 x D 40 x H 30 cm
- **Insertion slot:** 115 x 15 mm
- **Monitoring system:** Automatic built-in counter
- **Security:** 2 different padlocks with independent keys included
- **Structure:** Reinforced corners and integrated hinges
- **Handling:** 2 ergonomic side handles
- **Net weight:** 3.30 kg
