

30 lt eco-friendly hotel minibar h7617

30 lt eco-friendly minibar, silent class F thermoelectric system. Black structure 54x41.9x39.7 cm with 2 adjustable shelves and LED light.

The **h7617 hotel minibar** is a 30-liter refrigeration solution designed to ensure maximum guest comfort thanks to **new generation thermoelectric** technology. This system ensures **silent operation**, eliminating the acoustic disturbances typical of traditional compressors, making it ideal for placement in bedrooms and suites. The eco-friendly design excludes the use of harmful refrigerant gases, operating in full respect of the environment.

Designed for the needs of the **HoReCa** sector, the minibar solves the problem of uncontrolled energy consumption and frequent maintenance, offering a **three-level electronic thermostat** to optimize cooling based on the load. The versatile structure allows for both **built-in** installation, thanks to the included sliding hinge, and **free-standing** installation, adapting to any professional furnishing configuration.

Technical features

- **Refrigerated volume:** 30 liters
- **External dimensions (HxWxD):** 540 x 419 x 397 mm
- **Refrigeration system:** Silent thermoelectric
- **Energy class:** F (according to current regulations)
- **Energy consumption:** 0.26 Kwh/24hr (96 Kwh/year)
- **Power supply:** 230 V / 50 – 60 Hz
- **Power consumption:** 60 Watt
- **Net weight:** 11 Kg
- **Color:** Black (PVC finish)

Standard equipment

- CFC-free polyurethane insulation
- Electronic thermostat with adjustable temperature
- Cyclic automatic defrosting
- Low consumption internal LED lighting
- 1.5L bottle compartment integrated into the inner door
- 2 adjustable aluminum shelves
- Reversible door for maximum opening flexibility
- Sliding hinge for built-in installation
