

30 m floating swimming pool lane h1009_12

h1009_12 30 m floating swimming pool lane for FINA competitions with Ø150 mm asymmetric PP disks and AISI316 stainless steel cable. For competitions.

The **30 m floating swimming pool lane h1009_12** is a technical divider for 30-meter pools, specifically developed for competitive events thanks to the use of large-diameter disks and produced in compliance with FINA standards. This device solves the operational criticality of managing wave motion and the impact wave produced by high-speed swimmers, reducing turbulence in the water to ensure regular and homogeneous race conditions. Aimed at aquatic center managers, sports facility managers, and competition organizing committees, the lane features asymmetric design disks with a diameter of 150 mm (12 disks per meter) molded in first-quality polypropylene (PP) with added additives to offer high resistance to chemical and atmospheric agents. The structure of the 30 m line is assembled on a 6 mm diameter plastic-coated AISI316 stainless steel cable and is integrated with high-density polyethylene PE-HD floating balls (6 per meter). The item is supplied in standard colors blue, red, and white, with the possibility of requesting other color combinations upon quotation.

Technical features

- **Type and compliance:** Floating lane suitable for competitions, produced in compliance with FINA standards
- **Lane length:** 30 m
- **Disk design and dimensions:** Asymmetric design disks, diameter Ø 150 mm (12 disks per meter)
- **Disk material:** Molded first-quality polypropylene (PP), with additives for high resistance to chemical and atmospheric agents
- **Disk function:** Ideal for reducing waves produced by athletes
- **Assembly support:** Plastic-coated AISI316 stainless steel cable, 6 mm diameter
- **Floats:** PE-HD floating balls (6 per meter)
- **Standard colors:** Blue, red, white
- **Color variants:** Other colors available on request and upon quotation
- **Stainless steel springs and tensioners** (complete on request and upon quotation)
