

32-tray tray rack trolley h83323

Double stainless steel pastry trolley for 32 trays 60x40 cm (98x68x173.5 cm). Double column structure with handle, rear anti-slip support, bumpers and braked wheels.

The **professional H83323 tray trolley** is the ultimate logistical solution for bakeries, pastry laboratories and cooking centers handling industrial production volumes. Made entirely of **stainless steel**, this double-column model allows for the simultaneous transport of up to **32 trays or racks of 60 x 40 cm** (16 levels per column). The structure is designed to withstand heavy loads, with welded and polished joints that guarantee deep sanitization in line with HACCP protocols. Thanks to the side handle and oversized wheels, the handling of significant loads is smooth and safe, while the rear support on each guide prevents accidental slipping of the trays during transport.
