

4-channel floor cable protector h972_79

Rubber cable duct with 4 channels of 35x35 mm and yellow lid. Dimensions: L 400 x W 500 x H 65 mm.

The **4-channel floor cable protector H972_79** is a compact, safe, and highly visible solution for the **temporary protection of electrical cables and pipes** in environments subject to vehicle and pedestrian traffic. Ideal for **events, construction sites, warehouses, trade fairs, and workshops**, this cable duct is **made of durable rubber**, with a **yellow PVC top cover** to ensure immediate visibility and reduce tripping risks.

The structure houses **4 internal channels of 35 x 35 mm**, perfect for holding medium-sized cables and pipes, keeping them separated and protected. It withstands the **passage of vehicles up to 30 tons per axle**, making it **drive-over**, although **not suitable for use with forklifts or pallet jacks** equipped with polyamide or rubber wheels.

The design is engineered for **maximum practicality**: the **integrated handle** allows for easy transport, and the **H-connector system** allows multiple elements to be easily connected, creating continuous and stable protection over long distances.

Compact and lightweight (only 8 kg), it is designed for **exclusively temporary use** and is **not suitable for permanent installations** or crossings with heavy traffic.

Simplify cable management and improve the safety of your temporary spaces! Order the **H972_79 cable protector** now or request a quote for professional supplies.

Technical features:

- **Main material:** rubber
- **Secondary material:** yellow PVC lid
- **Color:** black/yellow
- **Length:** 400 mm
- **Width:** 500 mm
- **Height:** 65 mm
- **Number of channels:** 4
- **Single channel size:** 35 x 35 mm
- **Weight:** 8.00 kg
- **Load resistance:** up to 30 tons per axle
- **Connection system:** H-junction connectors
- **Carrying handle:** integrated
- **Use:** temporary
- **Not suitable for:** forklifts, permanent use, heavy road traffic

User benefits:

- **Protection:** safe for medium-sized cables and pipes.
- **High visibility:** for accident prevention in high-traffic areas.
- **Drive-over:** up to 30T, ideal for low-speed vehicles.
- **System:** modular with quick and easy connection.
- **Lightweight:** compact and easy to transport.

FAQ:

1. **How many cables can I protect?**

The duct offers 4 channels of 35x35 mm, perfect for power lines or light pipes.

2. **Is it suitable for permanent use?**

No, it is designed exclusively for temporary use.

3. **Can I drive a forklift over it?**

No, it is not suitable for forklifts or pallet jacks with hard wheels.

4. **Is equipment needed to install it?**

No, it is ready to use, can be carried by hand, and connects without tools.

5. **Is it suitable for truck passage?**

Yes, up to 30 tons per axle, at controlled speeds.

Mini buying guide:

If you are looking for a **practical and safe solution** for cable protection in temporary contexts, the H972_79 model is ideal.

With **4 channels of 35 mm**, a **drive-over and modular** structure, it fits perfectly in trade fairs, work areas, and transit zones.

The **visibility of the yellow lid**, combined with **resistance to light vehicle traffic**, ensures high safety.

For environments with intensive transit or permanent use, a dedicated cable duct with more advanced features is recommended.

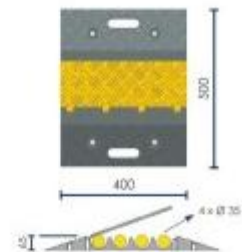

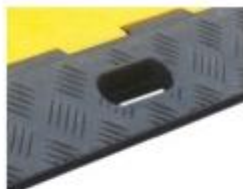

4-channel cable protector 35x35 mm, temporary drive-over cable cover, rubber PVC floor duct, cable protection for fairs and construction sites, black/yellow cable protectors industrial use, H-connection duct for events, temporary drive-over cable protection.
