

4-compartment recycling bin h424_98

Recycling bin for indoor use. Capacity: 4 x 220 liters. Self-closing lid.

4-compartment recycling station ideal for ensuring proper waste separation in public indoor spaces such as shops, shopping centers, stations, and universities. Consisting of a **galvanized and painted steel structure** divided into 4 internal compartments, each with an **independent internal container equipped with a bag-retaining elastic** and a **self-closing lid**. Emptying is therefore very simple and practical, ensuring easy and effortless bag extraction. The base is designed for floor bolting and is complete with **adjustable plastic feet**.

Technical features:

- Dimensions: L.118.2 x D.39 x H.81.5
- Material: steel
- Capacity: 4 x 220 liters
- 4 independent internal compartments with bag-retaining elastic
- Easy emptying
- Base with adjustable plastic feet
- Fixing: for floor bolting (bolts not included)
- Lid with self-closing flaps
- Labels included: blue paper, green organic, yellow cans, red plastic

***Upon request and subject to a quote, labels in other colors and for other types of waste can be requested*
