

4-compartment stainless steel bag holder trolley h315_30

Quadruple stainless steel bag holder trolley for hospital linen. Equipped with 4 pedals, swivelling wheels and soft closing.

The **quadruple bag holder trolley** represents a professional solution for the storage and sorting of **hospital linen** and textile waste in healthcare contexts. Made with a **stainless steel** supporting structure, this device guarantees high resistance to sanitization cycles and prolonged durability over time. The configuration with four independent compartments allows for efficient and differentiated load management, optimizing workflows within departments and clinics.

The opening system via **reinforced polypropylene pedals** allows the operator to work in “hands-free” mode, an essential requirement for maintaining the highest hygiene standards and preventing cross-contamination. Movement is made fluid by technical wheels designed for professional environments, which ensure silence and protection of surfaces.

Technical features

- **Structure:** 20 mm diameter stainless steel tubular
- **Capacity:** Four bag-holding rings with integrated hinges in the supports
- **Lids:** Rectangular polypropylene, impact-resistant
- **Operation:** Reinforced pedals for partial or total lid opening
- **Closing system:** Soft-close mechanism for silent repositioning
- **Wheels:** 4 swivelling wheels Ø 100 mm, thread-guarded, with grey non-marking tread
- **Protections:** Grey non-scratch rubber ring bumpers
- **Dimensions:** 540 x 1240 x h.950 mm

Optional:

- Pack of 10 bags in 100% polyester, water-repellent, 12 kg capacity, dimensions 550x1000 mm, equipped with toggle closure.
