

4-panel hospital screen h582_133

4-section hospital screen, steel frame, washable self-extinguishing PVC curtains, swivel wheels with brake, 212.5×170 cm.

The hospital screen is an indispensable solution for creating isolation and privacy spaces in healthcare environments. Designed for medical offices, clinics, and hospitals, it facilitates the temporary separation between inpatient and waiting areas, ensuring hygiene and operational convenience. The modular **4-section** structure allows for flexible configurations adaptable to different clinical layouts.
