

4-seater seesaw h350_131

Seesaw for playground with 4 seats. In aluminum and electro-galvanized steel.

The structure of the **playground seesaw** is made of **aluminum and electro-galvanized steel**. The **oscillating beam**, also in **aluminum** with a section of 90x90 mm, is equipped with **4 seats in HPL high-pressure laminate in bright colors and a thickness of 15 mm**. Shaped panels in bright-colored HPL high-pressure laminate with a thickness of 8 mm to support the standard-compliant **colored nylon handles**. The **fulcrum oscillation mechanism with Teflon bearings** consists of a central galvanized steel frame with posts of section Ø 89 mm and shaped arms of section Ø 60 mm. **2 reinforced rubber shock absorbers** positioned at the ends of the beam. Assembly using **8.8 galvanized steel bolts** and self-locking nuts. Standard-compliant colored nylon nut covers. **Polyethylene post caps**. Powder coating at 180°C in polyester powder with extremely high resistance to atmospheric agents and UV radiation. Ground anchoring attachments. This seesaw is the perfect game to include in all children's play areas to let them have fun in total safety.

Technical Features:

- Material: aluminum alloy and galvanized steel
- 4 seats
- Maximum dimensions: 45 x 393 x h. 93 cm
- Certified in compliance with European Standards EN 1176 by the German Institute TÜV-SÜD.
