

## 4-seater waiting room bench h17738

4-seater waiting room bench in thermoplastic material. Square tube structure and adjustable feet. Ideal for indoor use. Dimensions: H.800 x D.610 x L.2015 mm.

The **4-seater waiting room bench** is a solution designed to optimize the management of people flows in high-traffic indoor environments. Designed to solve the problem of collective seating in public and professional spaces, this bench combines the resistance of **thermoplastic material shells** with a solid **square tube structure** equipped with shell-support plates. The functional design and the availability of various colors make it suitable for post offices, medical studios, clinics, and large transport hubs, ensuring comfort and order in the professional and institutional waiting contexts.

## Technical features

- Number of seats: 4
- Seat material: Thermoplastic material
