

4-section medical screen for clinics h13_65

4-panel hospital screen in tubular aluminum with white washable curtains, mounted on 50 mm wheels. Dimensions 200x170 cm. Italian production.

The 4-panel hospital screen is a solution designed to guarantee **privacy and isolation between patients** in healthcare environments. Ideal for medical offices, clinics, and hospital wards, it allows for the quick and flexible creation of dedicated areas.

The **tubular aluminum structure** ensures lightness and durability, while the **washable white plastic curtains** allow for regular hygienic maintenance and simple replacement. The **50 mm diameter wheels** guarantee easy mobility even on hospital floors, facilitating frequent repositioning and movement.
