4-section tilt table h581_19

4-section tilt table, fixed height 50 cm, electric tilt 0-85°, patient straps and adjustable headrest, suitable for cardiological examinations and patient hoist access.

Professional **four-section** tilt table designed for medical examination contexts, particularly cardiology and diagnostics. Featuring a **fixed height of 50 cm** to ensure constant operational ergonomics, it allows for patient hoist access thanks to its dedicated structure.

The structure's tilt is **electrically adjustable from 0° to 85°** via a handset, allowing precise patient positioning for various diagnostic needs. The headrest is independently adjustable with a gas spring from 30° to 80°, while the footplates feature autonomous adjustment also via gas springs.

Equipped with **5 patient straps**, 2 axillary supports, a breathing hole complete with plug, and mobility ensured by 4 wheels (2 lockable, 125 mm diameter) for easy movement within the clinical environment.

Technical features

- Structure: 4 sections
- Fixed height: 50 cm
- Tilt adjustment: electric 0°-85°
- Headrest adjustment: gas spring, 30°-80° range
- Footplates: independent gas spring adjustment
- Breathing hole: yes, complete with plug
- Patient straps: 5
- Axillary supports: 2
- Wheels: 4 (125 mm diameter, 2 lockable)
- Dimensions: L 200 × W 65 × H 50 cm
- Maximum load: 150 kg
- Padding: density 30 kg/m³, thickness 40 mm
- Upholstery: fire-retardant class 1 IM
- Colors: several options available

Optionals

- Accessory tray table
