

4-space bike rack with plate h972_148

4-space bike rack with Ø 50 mm plate in galvanized steel. Dimensions: L 200 x H 91.5 cm. Weight: 16 kg.

The **H972_148 bike rack** is a robust and functional solution for **urban furniture**, ideal for public parking lots, schools, companies, commercial, and residential areas. Made of **galvanized steel**, it ensures **corrosion resistance** and long-lasting durability even in outdoor environments subject to bad weather.

The structure consists of **4 bike hoops** welded onto a **longitudinal bar**, with a **Ø50 mm fixing plate**, which allows for stable and secure installation on any surface. The simple yet functional design allows for **parking up to 4 bicycles** in an orderly and practical way, promoting sustainable mobility.

Thanks to the galvanizing treatment, the bike rack requires **minimal maintenance** and is suitable for installation in **high-traffic public spaces**. Its compact footprint and linear structure make it easily integrable into **modern or traditional urban contexts**.

Choose a durable solution for urban mobility: order the **H972_148 bike rack** or request a quote for multiple supplies.

Technical features:

- **Bike spaces:** 4
- **Material:** Galvanized steel
