

5-place bike rack h463_07

5-place bike rack in anthracite painted steel, bolt-down fixing. Dimensions: W 268 x D 80 x H 79.5 cm.

The **H463_07 bike rack** is a functional, aesthetic, and space-saving solution for the organization of bicycle parking in **high-traffic public and private spaces**, such as **schools, apartment buildings, companies, parks, and shopping centers**. Equipped with **5 stations**, it allows for **easy and safe parking** of bicycles thanks to its **anti-corrosion treated and UV-resistant powder-coated steel** structure, resistant to wear over time and atmospheric agents.

The **rounded shape** and the **generous space between the rings** facilitate parking maneuvers even with bicycles of different sizes. The model allows for **single or double access**, depending on the positioning, maximizing **space management** in contexts where every meter counts.

The painting is available in various colors, making it perfectly integrable into any modern urban environment. **Ground fixing** is carried out via **4 anchoring points** (fixing kit not included), guaranteeing **optimal stability**.

Robust, easy to clean, and with **minimal maintenance**, it represents an excellent choice for those looking for an economical but quality solution to promote sustainable mobility.

Choose practicality and design for your public or private spaces! Order the **H463_07 rack** now or request a quote for multiple supplies.

FAQ:

1. **How many bicycles can the H463_07 rack accommodate?**
It can accommodate up to 5 bicycles.
2. **Is it suitable for outdoor use?**
Yes, thanks to the anti-corrosion treatment and UV-resistant painting.
3. **Is a fixing kit required?**
Yes, the fixing kit is not included and must be purchased separately.

4. Can I fix it securely?

Yes, it must be bolted to the ground with 4 anchoring points to ensure maximum stability.

5. Is assembly complicated?

No, it is a simple structure to install; just fix it to the ground with appropriate bolts.

Mini buying guide:

When choosing a bike rack for public or private environments, consider **capacity**, **material robustness**, **type of access (single/double)** and **weather resistance**. The **H463_07** offers all this, plus it has an **elegant design**, a **small footprint** and integrates perfectly into modern urban contexts. Excellent for those who want a durable solution to **promote sustainable mobility** in an orderly and efficient way.
