

5-place Bike Rack with shelter h109172

Single-sided 5-place bike rack with shelter. Stainless steel structure. Dimensions: L. 310 x D. 250 x h. 249 cm. Made in Italy

Bicycle rack with shelter ideal for placement near schools, universities, railway stations and sports centers.

Structure composed of two **side supports in tubular steel** and sheet metal sides appropriately shaped with laser cutting.

The **shelter** represents a convenient coverage from the rain **and is made of polycarbonate** supported by 50 x 30 tubulars fixed to the side panels by means of screws and aluminum profiles with sealing gaskets.

For the collection and drainage of rainwater, the shelter is equipped with a practical sheet metal gutter.

Ground fixing is by means of a circular base plate with a diameter of 450 mm and a thickness of 12 mm provided with 4 holes for anchoring with expansion bolts or M16 anchor bolts. Instead, the bike rack is directly fixed via screws to the side posts of the shelter.

All metal parts are **hot-dip galvanized** and powder coated with thermosetting polyester available in various colors.

Technical features:

- Dimensions: L. 310 x D. 250 x h. 249 cm.
- Structure: in tubular steel Ø 121 mm
- Sheet metal sides - thickness 8 mm
- Shelter structure: in polycarbonate
- Gutter in press-bent sheet metal, thickness 15/10
- Single-sided 5-place bike rack
- Fixing: with expansion bolts
- Bike rack fixing: to the load-bearing columns of the shelter
- **Available in various colors**
- **Made in Italy**

**Image purely indicative.*
