

5-place spiral bike rack h33718

5-place bike rack ideal for urban furniture. Spiral structure and washed gravel bases. Dimensions 200 x 55 x h 38 cm. Made in Italy.

The bike rack is a fundamental element for placement in public environments such as parks, streets, or squares, to position bicycles in a practical and safe way.

The product is also perfect for installation in residential complexes to best manage residents' bicycle spaces.

The rack consists of a **spiral tube** in cold **galvanized steel** with powder coating, and **bases** in washed gravel.

The **anthracite grey** bike rack is designed for **5 places**.
