

5-shelf medicine storage cabinet h18_37

Medical display cabinet in painted steel with 5 glass shelves, hinged door with lock, dimensions 80x40x180 cm.

Professional display cabinet designed for the storage and **organized display of medicines** in healthcare environments, pharmacies, and medical facilities. The solution combines secure storage functionality with content visibility, ensuring controlled access via key lock.

The load-bearing structure is made of 8/10 mm thick **steel sheet**, subjected to a complete **anti-corrosion treatment** (phosphating, degreasing in a thermal tunnel) and **oven-baked with epoxy-polyester powders**, ensuring durability and resistance to humid environments. The sides and front door are made of **patterned glass**, while the 5 internal shelves are made of crystal, both ensuring total transparency and ease of cleaning. The **hinged door** is framed with a mirror-polished aluminum profile and equipped with a **key lock** for access control. The shelves can be positioned on rack rails, allowing flexible configurations based on storage needs. Stability is guaranteed by polished aluminum tube feet (Ø 30x2s), with one adjustable to adapt to floors that are not perfectly level.

Technical characteristics

- **Structure:** 8/10 mm steel sheet, oven-baked with epoxy-polyester powders
- **Doors:** 2 framed hinged doors, polished aluminum profile, key lock
- **Shelves:** 5 patterned crystal shelves, adjustable on rack rails
- **Sides:** Patterned glass
- **Feet:** Polished aluminum tube Ø 30x2s, 1 adjustable
- **Dimensions:** W. 80 x D. 40 x H. 180 cm
- **Surface treatments:** Phosphating, degreasing in thermal tunnel, industrial painting
