

## 5-slot nursery coat rack with plastic hangers h908\_200

Wall-mounted coat rack for preschools in melamine with 5 anti-trauma plastic hangers, length 100 cm, ideal for compact educational spaces.

The **h908\_200 coat rack** represents a specific technical solution for the organization of clothing in educational and recreational contexts aimed at early childhood. Designed with a focus on **passive safety** and efficient space management, this furnishing accessory allows for the rationalization of entrance areas or changing rooms in schools and playrooms.

The structure consists of a high-resistance **melamine board**, a material chosen for its durability and ease of sanitization. The **5 plastic hangers** have been selected for their shape, which is free of sharp edges, drastically reducing the risk of accidental impacts in environments with a high density of young users.

## Technical characteristics

- **Type:** Wall-mounted coat rack for schools and communities
- **Support material:** Scratch-resistant technical melamine
- **Hanger material:** High-resistance plastic polymer with a rounded profile
- **Capacity:** 5 independent slots
- **Dimensions:** Length 100 cm x Height 12 cm
- **Installation:** Wall fixing (hardware not included, to be chosen based on the support)
- **Intended use:** Kindergartens, nurseries, playrooms, recreational centers
