

5-spoke Mayo table h13_275

Professional Mayo table with fixed AISI 304 stainless steel tray, hydraulic adjustment 85-120 cm and 5-wheel base for surgical environments.

The **Mayo table h13_275** is a professional solution designed for setting up the sterile field in operating rooms and surgical clinics. Thanks to its structure with a **non-removable AISI 304 stainless steel tray**, it guarantees maximum stability and resistance to sterilization and chemical disinfection processes. Height adjustment is managed by a **hydraulic pump** system that allows the work surface to be adapted to the various ergonomic needs of the medical team, ranging between 85 and 120 cm.

Technical features

- **Tray material:** High-resistance AISI 304 stainless steel
- **Height adjustment:** Hydraulic pump system from 85 cm to 120 cm
- **Base:** Aluminum stand with 5 swivel wheels Ø 50 mm
- **Tray dimensions:** 70 x 45 x 1.8 cm
- **Load capacity:** Maximum capacity 40 kg
- **Total weight:** 14 kg
- **Configuration:** Fixed tray (non-removable)
