

50 L bag holder trolley h8623

Painted steel bag holder trolley, 50L capacity, with Ø150mm wheels and bag-securing elastic, HACCP compliant, for industrial environments and laboratories.

Waste bin trolley designed for the collection and transport of waste in industrial environments, laboratories, factories and warehouses. The structure is made entirely of **anti-UV powder-coated steel**, guaranteeing resistance to corrosion and durability over time even in critical operating conditions. The trolley is equipped with **Ø150 mm smooth wheels** to facilitate horizontal movements and a **bag-securing elastic** that allows for the safe fastening of the waste collection bag during loading and unloading.

Technical features

- Material: anti-UV powder-coated steel
- Color: metallic grey
- Capacity: 50 L
- Wheels: smooth Ø150 mm
- Pedal: wide
- Handle: integrated
- Fastening system: bag-securing elastic
- Dimensions: L.440 x D.530 x h.790 mm
- Weight: 9.68 kg
- Compliance: HACCP

Note: The waste collection bag is not included in the supply.
