

50-liter drum heater jacket h923_18

Industrial drum heater jacket h923_18 for 50-liter drums. 220 W power, integrated adjustable thermostat and silicone glass fiber insulating coating.

The **50-liter drum heater jacket h923_18** is a professional drum heating system, developed to meet the needs of **industrial operators, employers, workshop managers, laboratory technicians and managers of chemical or artisanal plants**. This device responds to the need to maintain stable materials that require a constant temperature during winter, or that must never fall below certain critical temperatures. The module solves the operational problem of **preserving the fluidity and integrity of substances stored in containers, allowing the user to calibrate the thermostat based on timing, the material characteristics of the container and the internal fluid thanks to a fixed radiant core**. Entirely made in Italy, the jacket consists of a high-tenacity synthetic outer coating and internal glass-silicone insulating layers that allow it to adhere perfectly to the surface to be heated while resisting high temperatures.

Technical features

- **Product type:** heating jacket for 50-liter drums
- **Code reference:** h923_18
- **Power supply:** 230 V AC
- **Nominal power consumption:** 220 Watt
- **Thermostat configuration:** built-in on board and adjustable from 0 to 150°C (the operating range for internal temperature regulation varies from 0 to 90°C based on the parameters set by the user)
- **Outer coating material:** Cordura / Nylon (synthetic material, very resistant and durable even in the most extreme conditions)
- **Inner insulating material:** glass fiber insulation layer to which the heating element is fixed
- **Closing and contact layer:** glass fiber fabric coated with silicone rubber (silicone-glass), ideal for adhering perfectly to the drum or pallet
- **Structural dimensions:** height (H) 460 mm x circumference 1330 mm
- **International Protection rating (IP):** IP 40
- **Power cable specifications:** 3-conductor silicone cable without plug, 3 meters long
- **Top cover configuration:** NO
- **Manufacturing and origin:** all processing is carried out in Italy
