

50 m floating racing lane suitable for competitions h1009_08

50 m floating lane h1009_08 for FINA swimming pools with Ø150 mm asymmetric PP disks and plastic-coated stainless steel rope. For competitions.

The **h1009_08 competition floating lane** with a length of 50 meters is a technical divider for Olympic pools, designed for competitive events thanks to the use of large diameter disks and manufactured in compliance with FINA regulations. This device solves the operational criticality of managing waves and impact waves generated by swimmers in 50-meter pools, reducing turbulence to ensure regulated and homogeneous racing conditions. Aimed at aquatic center managers, sports facility managers, and competitive event organizing committees, the lane features asymmetric design disks with a diameter of 150 mm (12 disks per meter) molded in top-quality polypropylene (PP) with added additives to offer high resistance to chemical and atmospheric agents. The structure of the 50 m line is assembled on a plastic-coated stainless steel rope with a diameter of 6 mm and is integrated by high-density polyethylene PE-HD floating balls (6 per meter). The item is supplied in standard blue, red, and white colors, with the possibility of requesting other color combinations upon quote.

Technical characteristics

- **Type and compliance:** Floating lane suitable for competitions, produced in compliance with FINA regulations
- **Lane length:** 50 m
- **Disk design and dimensions:** Asymmetric design disks, diameter Ø 150 mm (12 disks per meter)
- **Disk material:** Top-quality molded polypropylene (PP), with added additives for high resistance to chemical and atmospheric agents
- **Disk function:** Ideal for reducing waves produced by athletes
- **Assembly support:** Plastic-coated stainless steel rope, Ø 6 mm
- **Floats:** PE-HD floating balls (6 per meter)
- **Standard colors:** Blue, red, white
- **Color variants:** Other colors available on request and upon quote
- **Stainless steel springs and tensioners:** (on request and upon quote)
