

6-place coat rack shelf with sides h681_38

6-place coat rack shelf in birch plywood and HPL (120x26 cm). Fireproof finish and rounded edges for maximum safety in kindergartens.

The **h681_38** coat rack shelf is a structured solution for the functional organization of spaces in early childhood educational environments. Designed to combine mechanical resistance and passive safety, it allows for the orderly management of children's personal belongings thanks to six dedicated stations. The choice of materials and the ergonomic design respond to the rigorous demands of high-traffic contexts such as kindergartens and nurseries.

Technical features

- **Dimensions:** W 120 x D 26 x H 33 cm
- **Capacity:** 6 places with double hooks (upper knob and lower hook)
- **Structure:** 15 mm thick birch plywood panels, class E1 with low formaldehyde emission
