

6-seater double-sided bike rack h32813

6-seater bike rack made of electro-galvanised steel tubes. Wheel support on two levels. Supplied in assembly kit. Dimensions: mm 1179x611x464h

The **bicycle rack** is a practical element of urban furniture that allows for the creation of parking areas reserved for bikes. The **modern design** with **rounded lines** makes this rack suitable for any urban context. In fact, it can be positioned near stations, parks, urban centers but also condominiums, schools, offices and gyms.

The solid structure is made of steel tubes with an electro-galvanised anti-corrosion system. The **double-sided wheel support** brackets are positioned **on two levels** at staggered heights, to allow parking from **both sides** reducing ground footprint to a minimum.

The bike rack features **cap-shaped fixing feet in polyamide** loaded with "fiber glass" glass fibers, an extremely resistant material with rounded shapes.

This product is supplied disassembled and complete with assembly kit
