

6-tube revolving countertop cone holder h41204

Rotating countertop cone holder with 6 tubes of 6.5 cm. Height 100 cm structure for the professional display of cones in ice cream parlors and bars.

The cone holder display **h41204** is an indispensable complement for the professional management of service in ice cream parlors, bars and pastry shops. Designed for **countertop** use, this element combines the functional need for storage with the aesthetic enhancement of the displayed product. The rotating structure facilitates staff operations and allows customers a complete view of the available wafer variants, optimizing selection and service times.

The sophisticated design integrates harmoniously into heterogeneous furnishing contexts, from artisanal workshops to locations with a contemporary design. The possibility to choose between **different finishes** guarantees visual consistency with the layout of the point of sale, making the display a real element of functional design.
