

63-compartment medicine cabinet h823_05

63-compartment medicine cabinet, 10/10 anti-corrosive steel, PVC curtain closure, code lock, telescopic shelf.

63-compartment medicine cabinet designed for healthcare, pharmaceutical, and hospital environments requiring organized and secure storage of medicines and preparations. The **10/10 anti-corrosive treated steel structure with epoxy resin** ensures durability in contexts with high humidity and frequent sterilization. The **PVC sliding curtain closure** with an aluminum terminal blade offers total protection from contaminants, while the **code lock** restricts access to authorized personnel only.

The interior features **9 fixed shelves** and has **63 white drawers 150 mm high**, each equipped with a **label holder and label protection** for quick and legible identification. A **telescopic shelf** facilitates the retrieval and inspection of containers in the back without the need for manual emptying.
