

## 65-liter indoor waste recycling bin with pedal h424\_127

65-liter recycling bin with pedal opening and internal bag holder ring. Dimensions: 295 x 355 x h. 863 mm. Ideal for indoor environments.

The **indoor recycling bin h424\_127** is a practical and durable solution for optimizing waste management in **indoor environments**. The **galvanized steel** structure, finished with **thermosetting polyester resin** powder coating, ensures durability and resistance.

The **pedal opening** system allows for hygienic and convenient use, avoiding direct contact. The **internal bag holder ring**, made of **galvanized steel**, ensures a stable hold of the bag and facilitates emptying operations.

Thanks to its **modular** structure, the container can be used individually or in combination with other models, forming customized recycling stations. Suitable for **offices, schools, hospitals**, and other indoor contexts, it offers practicality and a modern aesthetic.

Identification stickers and bags are not included in the supply. Upon request, it is possible to ask for colored identification stickers for the waste type.

Simplify **waste recycling** in your **indoor spaces** with the **h424\_127** container. **Contact us now** for more information or to request a **personalized quote!**

### Technical features:

- **External dimensions:** 295 x 355 x h. 863 mm
- **Capacity:** 65 lt
- **Material:** galvanized steel with thermosetting powder coating
- **Opening:** pedal
- **Internal bag holder ring:** galvanized steel
- **Base:** integrated with adjustable feet
- **Anchoring:** ground support
- **Use:** indoor environments
- **Modular**
- **Stickers:** not included (available upon request)
- **Bags:** not included

### User benefits:

- **Ease of use:** pedal opening for hygienic and fast use.
- **Versatility:** ideal for indoor environments and customizable into modular recycling stations.
- **Stability:** adjustable feet for secure positioning on any surface.
- **Robustness:** made with high-quality materials, designed to last.

- **Simple maintenance:** practical design that facilitates emptying and cleaning.

#### FAQ:

1. **What is the capacity of the container?**

The container has a capacity of 65 liters, perfect for offices and indoor environments.

2. **Are identification stickers included in the supply?**

No, stickers are not included, but they can be purchased separately upon request.

3. **Is it possible to combine multiple containers?**

Yes, thanks to the modular structure, it is possible to create recycling stations with multiple units.

4. **How is the stability of the container guaranteed?**

The adjustable feet ensure stable positioning even on irregular surfaces.

5. **What capacity should the bags have to be used with the container?**

The container is designed to use bags with a capacity of 65 liters, not included in the supply.

#### Mini buying guide:

To choose the ideal container for **waste recycling**, consider capacity, material, and modularity possibilities. The **h424\_127** model offers **robustness**, **versatility**, and a practical design, ideal for spaces such as **offices**, **schools**, **restaurants**, or **hospitals**. Thanks to its modular structure, you can customize your recycling stations according to specific needs.
