

8-space bike rack h1023_13

Double-sided rack for 8 bikes, anti-theft with steel eyelets. Dimensions: L 216 x W 120 x H 85.6 cm.

The **H1023_13 8-space bike rack for urban furniture** is a **professional and secure** solution for bicycle parking in high-traffic public and private spaces such as **offices, schools, companies, commercial areas, stations and sports centers**. Designed to ensure **maximum protection against theft** and intensive use, it is made of **galvanized steel** with a stable and durable **bolted structure**.

The rack accommodates **up to 8 bicycles** with a **double-sided** system and a **distance between bikes of 500 mm**, which guarantees easy access and maneuverability, even for large bikes or **e-bikes/pedelecs**. The **frame supports** are **plastic-coated** to prevent scratches and protect bicycles from accidental damage. The **integrated steel eyelets** in the supports offer a secure point for locking the frame, making locking operations more convenient and effective.

The **alternating vertical parking system** (high/low) allows for significant **space saving**. The construction is **prefabricated**, ready for **floor installation**, and **modular**, for **serial connection** with other units. The mounting kit is included and makes installation quick. The rack complies with **theft safety requirements according to DIN 79008:2016-05 point 7.2**, the reference standard for bike parking systems in urban environments.

Invest in security and functionality: order the **H1023_13 rack** for urban furniture now. Contact us to receive a personalized quote or for large quantities.

Technical features:

- **Bike capacity:** 8 spaces
- **Configuration:** Double-sided, alternating high/low positioning
- **Material:** Galvanized steel
- **Mounting type:** Floor-mounted with brackets included
- **Finish:** Silver color
- **Construction type:** Bolted, prefabricated
- **Weight:** 62.00 kg
- **Maximum tire width:** 55 mm
- **Distance between bikes:** 500 mm
- **Space required:** 3200 mm
- **Certifications:** Compliant with DIN 79008:2016-05 point 7.2

User benefits:

- **Maximum:** protection against theft thanks to integrated steel eyelets.
- **Supports:** scratch-resistant to preserve the integrity of the bicycle frame.
- **Ideal:** for high-end bikes, pedelecs and e-bikes.
- **Installation:** simple and fast thanks to the included kit.
- **Structure:** modular for future extensions and space optimization.

FAQ:

1. **Is it also suitable for electric bicycles (e-bikes)?**

Yes, the rack is designed to also accommodate electric bicycles and pedelecs, with robust supports and sufficient space for tires up to 55 mm.

2. **How is the floor mounting done?**

The product is supplied with brackets and bolt kit. It must be fixed to the ground using anchors, ensuring maximum stability.

3. **Is it possible to connect multiple racks in series?**

Yes, the system is modular and prefabricated for serial connection, perfect for creating large parking areas.

4. **Is the structure resistant to rain and weather agents?**

Yes, it is made of galvanized steel, corrosion-resistant and ideal for outdoor use all year round.

5. **What standards does it meet in terms of security?**

It meets the DIN 79008:2016-05 point 7.2 standard, which guarantees high standards against theft in bicycle parking lots.

Mini buying guide:

If you need to equip a public or corporate space with a bicycle rack, always consider **the number of spaces required**, the **available space** (length and depth), and the type of users (standard bikes, e-bikes, trailers).

Galvanized steel models are recommended for their **weather resistance**. **Modular configurations** allow you to start with a few spaces and **expand the parking area later**.

Always check for **anti-theft supports** and **compatibility with wide tires**, particularly for e-bikes.

Finally, choose racks that comply with **regulations such as DIN 79008** for a certified safety guarantee.

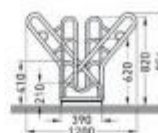

Urban bike rack, 8-space galvanized steel rack, anti-theft rack with eyelets, bike support for urban furniture, DIN certified bike rack, double-sided rack for e-bikes.
