

9-seater bike rack with advertising display h14086

9-seater galvanized steel bike rack with a 2430x460 mm advertising board. Dimensions 2810x780x2305h mm. Made in Italy.

To create bicycle parking areas near **squares, parks, schools and offices**, **bike racks** are necessary.

In particular, this product is equipped with a practical **double-sided board in galvanized steel sheet**, ideal for generating a small income from the concession of **advertising space**.

The modest-sized structure consists of two **galvanized steel** horizontal **rectangular connecting tubes** and two concrete side supports. The **nine wheel-holder positions** are made using arc-shaped **round galvanized steel tubes**. The brackets are specifically staggered to facilitate the insertion of 9 bicycles while avoiding excessive bulk.

To ensure adequate prevention against atmospheric agents, the galvanized steel parts are painted with **anti-corrosion treatment**, while the two concrete supports are treated with **anti-degradation liquid**.

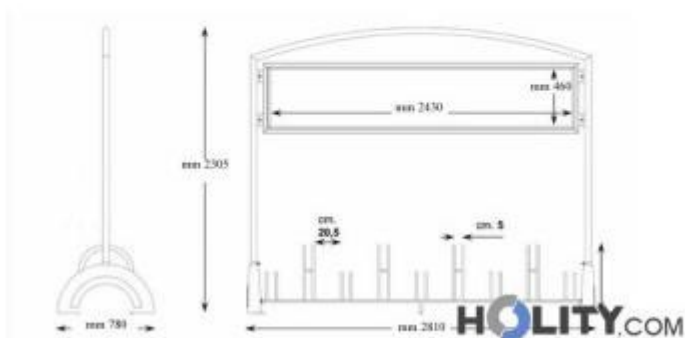

To allow for the correct stability of the bike rack, the concrete supports are equipped with a convenient plate with holes for fixing to the ground using expansion bolts.

Technical features:

- Dimensions: 2810 x 780 x 2305 mm (W x D x h)
- Painted galvanized steel structure
- Finish: bright aluminum
- Sides: in concrete
- Horizontal crossbar dimensions: 50 x 20 x 1.5 mm rectangular tubes
- Wheel-holder bracket dimensions: 40 x 20 x 1.5 mm oval tubes
- Board thickness: 12/10
- Board support frame diameter: 48 mm round tube
- Frame thickness: 12/10
- Anti-corrosion treatment
- Fixing: to be bolted to the ground
- Weight 181 kg
- **Made in Italy**
