9-space double-sided vertical bike rack h33711

Vertical bike rack in galvanized and painted steel, with neutral PVC advertising sign. Dimensions: mm 2150x1000x1450h. Italian product

The **bike rack** allows the creation of secure parking areas for bicycles. This model is characterized by a **unique design** and a **vertical development structure** that allows space to be kept to a minimum, ideal for urban centers, schools, parks, stations, but also for apartment buildings.

The bike rack consists of two side uprights on which the rack structure is fixed with wheel-holding elements positioned on both sides, to allow more bicycles to be parked.

To ensure greater safety, this rack is equipped with a system with a plate to allow the bicycle frame to be fixed to the bike rack using a chain. To complete the bike rack, there is a practical neutral PVC advertising sign.

All metal parts are **cold galvanized and powder coated**, to ensure better resistance to atmospheric agents.
