

95-litre self-extinguishing indoor recycling bin h424_126

Indoor recycling bin, 95-litre capacity, with front door and metal inner container. Self-extinguishing. W. 420 x D. 295 x h. 863 mm.

The **self-extinguishing indoor recycling bin h424_126** is the ideal choice for managing waste safely and efficiently in indoor environments. Made of **galvanized steel** with a **thermosetting polyester resin** powder coating finish, it is designed to last and withstand daily wear and tear.

Thanks to the **modular** model, this bin can be integrated with other modules to create customized recycling stations. The **front door**, equipped with a **magnetic closure**, allows easy access to the **metal inner container** for emptying.

The **integrated base** and **adjustable feet** allow the container to be placed stably even on uneven surfaces. To be placed on the ground. This model is designed for use in **indoor environments**, such as offices, schools, or shopping centers. Upon request, a colored sticker with the name of the waste can be requested (not included in the supply).

Buy now the 95-litre self-extinguishing bin for a practical and safe recycling system! **Contact us for a personalized quote or for larger quantities.**

Technical features:

- **Dimensions:** W. 420 x D. 295 x h. 863 mm
- **Capacity:** 95 lt
- **Self-extinguishing**
- **Material:** galvanized steel with thermosetting polyester resin powder coating
- **Collection system:** metal inner container
- **Front door:** with magnetic closure
- **Base:** integrated with adjustable feet
- **Anchoring:** ground-standing
- **Stickers:** not included in the supply, can be purchased separately on request
- **Suitable for:** indoor environments

User benefits:

- **Guaranteed safety:** The self-extinguishing design reduces the risk of accidental fires.
- **Ease of use:** The front door allows for quick and effortless emptying.
- **Resistance:** High-quality materials for intensive and long-lasting use.
- **Modularity:** Possibility to combine multiple bins for organized waste collection.

- **Adaptability:** Adjustable feet for perfect stability on any surface.

FAQ:

1. Is the bin easy to empty?

Yes, thanks to the front door with magnetic closure, access to the internal container is quick and effortless.

2. What does the supply include?

The supply includes the bin with its metal inner container; recycling stickers are not included.

3. Is it possible to combine several bins together?

Yes, thanks to the modular design, multiple bins can be placed side by side to create customized recycling stations.

4. Is the internal container resistant?

Yes, the internal container is made of metal, ensuring strength and durability over time.

5. Is it suitable for tight spaces?

Yes, thanks to the compact and modular design, the bin is ideal for environments with limited space.

Mini buying guide:

The **95-litre self-extinguishing bin** is a functional and safe solution for recycling in indoor environments. Thanks to its modular capacity and robust structure, it adapts perfectly to offices, shopping centers, and schools. Before proceeding with the purchase, evaluate the dimensions and capacity according to the needs of your facility. For more organized waste management, multiple modules can be combined.
