

ABS sachet holder h16406

Professional black ABS sachet holder with 4 compartments. Heat resistant (130 °C), compact and equipped with rubber feet. Minimum 5 pieces.

The **professional ABS sachet holder** is an essential accessory to complete the welcome set in hotels, B&Bs, and hospitality contexts. This compact display unit solves the problem of disorder in coffee and tea corners, allowing for the clear organization and separation of different types of infusions, sugar, or sweeteners. Made of **high-resistance black ABS plastic**, the product stands out for its ability to withstand temperatures up to 130 °C, making it suitable for placement near kettles and heating bases without the risk of deformation.

The structure is divided into **4 ergonomic compartments** that make it easier for guests to take the sachets and speed up restocking operations for service staff. Thanks to the **integrated rubber feet**, the sachet holder ensures excellent stability on various surfaces, avoiding accidental slips or scratches on room furniture. The essential design and matte black color make it a discreet and elegant element, perfect for being placed inside courtesy trays or directly on minibar shelves.
