Adjustable height cardiological examination table h581_20

Motorized cardiology examination table with 0-90° tilt, electric height adjustment 54-96 cm, 150 kg capacity, 4 wheels (2 braking), safety straps and adjustable tray.

The **cardiology examination table** is a medical device designed for cardiological examinations and therapy in the supine position through controlled tilting of the platform. Ideal for cardiology clinics, outpatient clinics and specialist examination facilities, it allows for the progressive positioning of the patient from 0° to 90° of inclination via a **low-voltage electric motor**. The structure guarantees stability and comfort during diagnostic and therapeutic maneuvers, with accessories dedicated to patient safety and support.

Technical features

- **Table sections:** 2
- **Tilt adjustment:** 0°–90° (motorized)
- **Height adjustment:** 54–96 cm (motorized, 24 V hand control)
- **Hoist clearance:** 15 cm
- **Table top offset:** 0 cm
- **Table width:** 65 cm
- **Overall width:** 70 cm
- **Length:** 200 cm
- **Maximum capacity:** 150 kg (evenly distributed)
- **Wheels:** 4 (diameter 100 mm), 2 of which are braking
- **Patient restraint straps:** 3
- **Tray:** shaped for forearm support, adjustable in height and depth (630×470×8 mm)
- **Footboards:** independent manual adjustment +20°/?20°
- **Headrest:** gas spring adjustment +60°/?20°
- **Actuator thrust:** 8000 N
- **Power supply:** 230 V, 50/60 Hz
- **Protection:** IP 66
- **Breathing hole:** present with plug
- **Weight:** 70 kg
- **Hand control:** attachable to the frame (24 V)
