

Adjustable instrument table h736_02

Stainless steel surgical instrument Mayo stand with hydraulic foot pedal adjustment. 74x54 cm tray, 30 kg capacity, rounded edges.

This surgical instrument Mayo stand is designed to ensure maximum efficiency and safety within operating rooms, specialist clinics, and outpatient departments. Made entirely of **stainless steel**, it meets the rigorous hygiene standards required by hospital environments, offering a work surface that is corrosion-resistant and easy to sanitize. The structure is characterized by rounded edges and corners, a technical solution aimed at preventing accidental injuries during the hectic phases of surgery. The hydraulic lifting system operated via foot pedal allows the operator to adjust the height of the work surface hands-free, preserving the integrity of the sterile field.

Technical features

- **Material:** High-resistance stainless steel
- **Height adjustment:** Hydraulic foot pedal system (range 950 - 1350 mm)
- **Load surface:** 740 x 540 mm tray
- **Maximum load capacity:** 30 kg
- **Mobility system:** 75 mm twin wheels, resistant to abrasion and corrosion
- **Safety:** Profile with rounded corners and edges
- **Total dimensions:** 780 x 540 x 950/1350 mm
- **Total weight:** 31 kg
