

Advertising flag with snow spike h738_169

Flag with printing included and snow spike. Fabric dimensions: 82.6 x 267.9. Total height: 343.5 cm.

The **rectangular advertising flag H738_169** is designed to ensure **visibility and stability even in snowy outdoor environments**, thanks to the **snow spike included**, ideal for anchoring on soft or snowy surfaces.

The structure is composed of a **flexible fiberglass pole**, a material that ensures **high wind resistance**, lightness, and ease of assembly. The fabric is **100% nautical polyester, 100 g**, printed with **single-sided sublimation**, to offer **bright and long-lasting colors**, even in difficult weather conditions.

The **printing is included** in the price: simply provide the graphics during the ordering phase to start production. The product is suitable for both **indoor and outdoor use**, but stands out for the possibility of being used **on snowy terrain**, thanks to the **specific base provided**.

The total height of the structure is **343.5 cm**, with a fabric of **82.6 x 267.9 cm**, optimal dimensions to ensure **visibility even from a long distance**, without being bulky. The durability of the fabric under continuous outdoor exposure (24/7) is approximately **90 days**, but it can exceed **12 months** if used in less exposed or indoor environments.

Order your **outdoor flag with snow spike H738_169** now! Contact us for graphic assistance or quotes for multiple orders.

FAQ:

1. **Is the snow spike base included in the price?**
Yes, the flag is equipped with a snow spike, ideal for outdoor environments with snowy ground.
2. **Is printing included?**
Yes, single-sided sublimation printing on nautical fabric is included. The customer must provide the graphics during the ordering phase.
3. **What are the dimensions of the fabric?**
The fabric dimensions are 82.6 x 267.9 cm.
4. **Is it only suitable for snow?**
No, it can also be used in indoor environments or outdoors on soft ground, but the spike is specifically for snow.
5. **How long does it last in difficult weather conditions?**
If continuously exposed outdoors, the average durability of the fabric is approximately 90 days. Indoors or in protected conditions, it can last over 12 months.

Mini purchase guide:

If you need to install an **advertising flag in outdoor environments with snow**, the H738_169 model is the perfect solution.

Thanks to the **snow spike included**, it offers a stable base even on particularly soft or snowy surfaces.

Before purchasing, make sure that the installation area is compatible with the type of anchoring.

Prepare your **high-resolution graphics** in advance, and check that they comply with the required specifications to obtain a **sharp and durable print**.

This model combines **resistance, flexibility, and ease of use** to promote your brand even in the coldest seasons.

Advertising flag for snow, rectangular flag with spike, outdoor winter advertising sail, promotional flag with snow base, fiberglass flag with printing included, single-sided outdoor flag.
