

Advertising sail flag 82.6 x 267.9 cm h738_165

Advertising flag with printing included, flexible fiberglass pole. Fabric dimensions: 82.6 x 267.9 cm. Total height: 343.5 cm.

The **rectangular advertising flag H738_165** is an effective solution to promote your business with **maximum visibility** both indoors and outdoors. Made with a **flexible fiberglass pole**, it is particularly wind-resistant and suitable for intensive use. The fabric, in **100 gr nautical polyester**, is printed with **single-sided sublimation**, ensuring brilliant and long-lasting color rendering.

The product is **complete with printing included** in the price: simply provide the graphics to proceed with the printing. The structure has an **elegant black finish** and is designed to be **easily disassembled, transported, and reassembled**, making it perfect for trade fairs, promotional events, corporate entrances, and shops.

The **durability of the fabric** outdoors, exposed 24 hours a day, 7 days a week even in difficult weather conditions, is approximately **90 days**. When used in indoor or protected environments, the durability can exceed **12 months**, keeping the print quality unchanged.

The **H738_165 flag** combines strength, functionality, and customization, offering a professional, immediate, and high-visual-impact promotional solution for every communication need.

3. **What are the dimensions of the fabric?**
The fabric dimensions are 82.6 x 267.9 cm.
4. **Is the structure detachable?**
Yes, the structure is lightweight, flexible, and easily detachable for easy transport.
5. **What shape is the flag?**
The flag is rectangular in shape.

Mini buying guide:

If you are looking for a practical and visible solution to promote your brand in trade fair contexts, outdoor events, or at your point of sale, the **rectangular advertising flag** is the right choice.

Evaluate the available space and choose dimensions suitable for the viewing distance.

Always check if the installation site is subject to wind or bad weather; in such cases, opt for **fiberglass** structures like the H738_165 model, designed to ensure stability and long durability.

Remember to prepare high-quality graphics and ensure they follow the guidelines for sublimation printing to obtain the best possible visual result.
