

Advertising totem 30 x 60 with sheet metal h738_203

Double-sided advertising minitotem h738_203 with 30x60 cm sheet metal sign and aluminum profiles. Height 140 cm, circular silver base. Outdoor use.

The **advertising totem h738_203** is a double-sided column display with an essential and modern design, ideal for outdoor communication and directional signage. The structure is composed of a sign with **extruded aluminum profiles** framing convex display surfaces in **10/10 pre-painted white sheet metal**. The display panel is supported by a silver anodized aluminum central upright with a diameter of 30 mm, guaranteeing lightness and resistance to atmospheric agents. Stability is ensured by a solid circular base with a diameter of 350 mm, made of metal with a thickness of 6 mm and finished with silver powder coating. With an overall height of 1400 mm, this minitotem represents a professional and durable solution for advertising messages visible on both sides.
