

## Advertising totem with aluminum profiles h738\_201

Double-sided minitotem h738\_201 with aluminum profiles and convex 10/10 sheet metal panel. Height 140 cm, silver post and circular base. Outdoor use.

The **advertising totem with aluminum profiles h738\_201** is a double-sided column display designed for outdoor communication and directional signage. The structure stands out for the use of **extruded aluminum profiles** that frame convex display surfaces made of **white pre-painted 10/10 sheet metal**. The display panel is supported by a silver anodized aluminum central post with a diameter of 30 mm, which gives momentum and modernity to the design. The stability of the entire structure is guaranteed by a solid circular base with a diameter of 350 mm, made of metal with a thickness of 6 mm and finished with silver powder coating. With an overall height of 1400 mm, this minitotem represents an elegant and resistant solution for advertising messages visible on both sides.

## Technical features

- **Structure dimensions:** 1408 x 350 mm
- **Standard height:** 1400 mm
- **Panel format:** 300 x 1000 mm
- **Visible area:** 273 x 1000 mm
- **Profile material:** Extruded aluminum
- **Post material:** Silver anodized aluminum (Ø 30 mm)
