

AISI 304 stainless steel bin on wheels liquid-tight 90lt h111_83

Professional AISI 304 stainless steel bin, 90 liters, pedal opening, wheeled base, liquid-tight.

Professional bin designed for catering environments and commercial kitchens, ensures hygienic and orderly waste management with a completely liquid-tight structure. Made of **AISI 304 stainless steel**, it offers corrosion resistance and ease of disinfection, essential features for compliance with hygiene standards in the HoReCa sector. The **pedal** opening eliminates manual contact, reducing bacterial proliferation and improving operational convenience. The **wheeled base** allows for easy movement even in confined spaces, while the **liquid-tight bottom** prevents spills and keeps the surrounding environment clean.

Technical features

- Diameter and height: Ø40 × h. 90 cm
- Capacity: 90 liters
- Material: AISI 304 stainless steel
- Finish: satin
- Top lid with pedal opening
- Mobile wheeled base
- Liquid-tight structure
- Liquid-tight bottom
