

AISI 304 stainless steel bin with manual lid h413_75

70-liter round AISI 304 stainless steel bin with trolley, manual lid, and liquid-tight bottom. Diameter 40 cm, height 70 cm.

This **70-liter round bin in satin AISI 304 stainless steel** is designed to ensure functionality and hygiene in professional environments. The **manual lid** allows for secure waste closure, while the **liquid-tight bottom** prevents any leaks or seepage, keeping the environment clean and dry. Equipped with an **integrated trolley**, it is easily transportable even when completely full, making it ideal for high-traffic areas such as industrial kitchens, restaurants, and pizzerias where frequent movement is necessary.

Made of **corrosion and wear-resistant material**, it maintains a professional and polished appearance over time, even in humid environments subject to intensive washing.
