

Aluminum advertising totem h738_208

Double-sided outdoor minitotem h738_208 with double A3 white sheet metal sign and silver aluminum post. Height 1408 mm, base Ø 350 mm.

The **aluminum advertising totem h738_208** is a multifunctional column display system, ideal for outdoor and indoor signage. The structure stands out for the presence of **two A3 format signs**, made with extruded aluminum profiles and convex surfaces in **white pre-painted 10/10 sheet metal**. The central post, with a diameter of 30 mm, is produced in silver anodized aluminum, ensuring a modern aesthetic and high resistance to corrosion. Stability is ensured by a solid 6 mm thick circular metal base with a silver powder-coated finish. This support solves the need to communicate distinct or categorized information on a single post, optimizing space and ensuring impeccable double-sided visibility.
