

Aluminum bus stop shelter h287_228

Bus stop shelter with roof equipped with a bench. Dimensions: W.310 x D.70 x H.220 cm approx.

The **bus waiting shelter** is an essential product for all residential centers and areas served by public transport services. Thanks to the **roof**, the product is necessary to protect travelers from bad weather and direct sunlight. The **removable bench** in **galvanized oval steel tubing** also offers the possibility to wait for the bus comfortably seated. The shelter is made entirely of **aluminum profiles**. The **upper part is filled with transparent multiwall polycarbonate** while the rear part is **filled with transparent solid polycarbonate**. The shelter is manufactured **according to safety requirements and through the use of techniques and methodologies based on the use of non-toxic substances**.

Technical characteristics:

- Material: aluminum and polycarbonate
- Square galvanized steel sheet plates for fixing
- Removable bench in galvanized steel tubing with a section of 40x20x1.5 mm
- Upper cladding in 6 mm thick transparent multiwall polycarbonate
- Rear cladding in 4 mm thick transparent solid polycarbonate
- Fixing: ground level
- Galvanized steel bolts
- Dimensions: W.310 x D.70 x H.220 approx. cm
- Roof dimensions: 60 x 300 cm
