

Aluminum display stand for fruit h757_38

Double-sided sloped aluminum stand for fruit and vegetables. Dimensions: 120 x 150 x H 65 cm.

The **aluminum display stand for fruit H757_38** has been designed to offer **maximum visibility of products on both sides**, while ensuring **stability, lightness, and minimal footprint**.

Ideal for the display of **fruit and vegetables** in markets, fairs, and street vending contexts, this stand allows for **simultaneous double display** thanks to the presence of **two 60 x 150 cm sloped surfaces**, arranged symmetrically.

Made with a **resistant 35x20 mm aluminum profile**, **50 mm oval profiles**, and **10 mm round tubing**, the stand ensures high **structural strength** while maintaining **ease of transport and assembly**.

The **reinforced hinges** and the **bolt assembly** system make the stand stable and durable even with frequent use.

The edge is made with a **special profile** for greater grip and aesthetic finish. The **accident-prevention rounded corners in die-cast aluminum** guarantee the **safety of operators** during the loading, unloading, and sales phases.

The total height of the stand, equal to **30 cm**, makes it ideal for ground display, perfect for low-height contexts or for creating modular display rows.

Order the **H757_38 market stand** now for an organized, safe, and professional double display. Request a quote for multiple supplies.
