

Aluminum fire extinguisher floor stand h42903

Mobile chrome-plated aluminum fire extinguisher floor stand, height 192 cm with projecting sign. Lightweight, self-standing and ideal for offices and public spaces.

The **mobile fire extinguisher floor stand** is an essential device to ensure safety and regulatory compliance within public and private environments. Made with a **chrome-plated aluminum tubular structure**, it offers a self-standing solution that avoids permanent interventions on walls, facilitating the setup of fire prevention points quickly. The chrome finish ensures a professional aesthetic impact, making it suitable even for contexts where design is fundamental.

Technical features

- **Material:** corrosion-resistant chrome-plated aluminum tubular frame
- **Configuration:** self-standing mobile structure for flexible positioning
- **Signage:** 15x15 cm double-sided projecting sign included for high visibility
- **Total height:** 192 cm for rapid identification in case of emergency
- **Maneuverability:** lightweight construction to facilitate movement and maintenance
