

Aluminum IV pole h582_02

Anodized aluminum IV stand with 5-spoke plastic base and wheels. Adjustable height 135-240 cm. Mobile support Made in Italy.

This **IV stand** is a professional support designed for the administration of intravenous therapies in clinical and home settings. The **anodized aluminum** structure guarantees high resistance to oxidation and structural lightness that facilitates daily handling operations by healthcare personnel or caregivers.

The telescopic adjustment system allows for adapting the pole extension based on specific therapeutic needs and the patient's posture, ensuring the correct gravity flow of liquids. The base configuration is designed to prevent accidental tipping, maintaining a small footprint in operational spaces.

Technical features

- **Material:** High-resistance anodized aluminum
- **Height range:** Adjustable from 135 to 240 cm
- **Upper configuration:** No. 4 safety IV hooks
- **Base:** 5-spoke structure for maximum stability
- **Movement system:** No. 5 high-smoothness swiveling wheels
- **Production:** Made in Italy
