

Aluminum trolley with platform h462_08

Aluminum trolley with full platform (1250x600 mm). Capacity 350 kg, 4 nylon wheels. Ideal for heavy loads in kitchens and warehouses.

The **full platform trolley** is a professional solution designed for the manual handling of heavy loads in high-activity environments. Thanks to its reinforced structure, it is the ideal tool for **restaurants, canteens, professional kitchens and warehouses**, where load stability and ease of maneuverability are essential requirements. The use of aluminum guarantees an excellent ratio between self-weight and load capacity, while offering a hygienic and durable surface.

Technical features

- **Material:** high-resistance aluminum
- **Wheels:** 4 nylon wheels (2 fixed and 2 swivel) with 160 mm diameter
- **Wheel support:** electro-galvanized steel housing resistant to stress
- **Maximum capacity:** 350 Kg
- **Total dimensions:** 1250 x 600 x 1000 mm
- **Configuration:** full platform for uniform weight distribution
