

Anthracite street furniture bollard h1047_03

Removable street furniture bollard h1047_03 in anthracite painted galvanized steel. Post with 60 mm diameter equipped with automatic locking and rapid removal system via triangular key (see options). Height: 100 cm above ground.

The **anthracite street furniture bollard h1047_03** is a professional road delimitation and protection device with high structural resistance, developed specifically for **municipal administrations, public technical offices, employers, indoor and outdoor urban designers, traffic managers, and corporate safety managers**. This complement responds to the organizational need to regulate traffic flows and safeguard public safety, solving the operational problem of **securing access to pedestrian areas, limited traffic zones (ZTL), and corporate or public parking lots, while allowing emergency or service vehicles to pass in case of emergency or necessity thanks to a quick opening and dismantling system of the passage**. From a material profile, the unit is entirely made of robust galvanized steel with an anthracite painted finish, a metallic treatment that guarantees excellent protection against rust, atmospheric corrosion, and daily wear. The post architecture features a fixed external diameter of 60 mm and develops a useful height of 100 cm above ground. Operation is based on an integrated mechanism with automatic locking of the station, while removal and unlocking operations occur through the use of a specific triangular key. The stability of the module on the ground is guaranteed by the positioning of a 35 cm deep lower ground socket, included in the supply of the shaft.

Technical features

- **Product type:** removable traffic bollard for street furniture with emergency release
- **Code reference:** h1047_03
- **Construction material:** galvanized steel
- **Surface protective finish:** anthracite color painted
- **Post external diameter (D):** 60 mm (D60mm)
- **Useful structure height:** 100 cm above ground
- **Fixing base specifications (Anchoring):** 35 cm deep lower socket to be buried
- **Integrated locking mechanism:** post with automatic closing system
- **Unlocking and removal mechanics:** rapid removal of the metal shaft performable via triangular key (key not included in the package see options)
- **Main operational functionality:** allows for quick opening and dismantling of a passage in case of emergency or logistical needs
- **Installation suitability:** outdoor areas, pedestrian access, road delimitations, and parking areas

Optional:

- **Triangular key**
