

Anti-decubitus kit with compressor and fire-retardant air mattress h30917

Anti-decubitus bubble air mattress with compressor in fire-retardant material. Dimensions: 190x90x8 cm

Anti-decubitus mattress ideal for nursing homes, clinics and hospitals.

Bubble air system and **fire-retardant medical PVC material**. The alternation of contact points with the skin performs a gentle massage that allows good blood flow and good tissue oxygenation, preventing the formation of pressure ulcers.

It is an easy-to-install, use and maintain mattress. Particularly comfortable, it is fixed to the mattress by means of flaps and all parts are washable

Technical features:

- bubble air types
- fire-retardant and washable PVC material
- equipped with compressor
- dimensions 190x90x8 cm
- Requirements according to Standard ISO EN 12182 – CEI UNI EN 60601-2-52
